Features

- Oversize silver alloy contacts for long life and better heat dissipation.
- Side-wired terminals accept #14 to #10 AWG copper or copper-clad conductors.
- Fiber terminal insulation barriers standard.
- Can be mounted in standard device boxes or in NEMA 1 sheet steel enclosures.
- Bodies, covers and toggles molded of arc-resistant Urea.
- Single Pole—Double Throw and Double Pole—Double Throw.

Application

For ON-OFF control of motors on small machine tools, pumps, fans and air conditioning equipment that require heavy-duty AC Double Throw Center OFF controls.

ON/OFF Motor Switches

Application

For ON-OFF control of single and 3-phase motors on small machine tools, pumps, fans and resistance heater loads. No overload protection.

Features

- Oversize silver contacts for long life and better heat dissipation.
- Single phase switches are side wired with #14 - #10 AWG copper or copper-clad conductors.
- Three phase controls are side wired for #14 - #12 AWG copper or copper-clad conductors.
- Can be mounted in standard 2-1/8" utility or switch box. For surface mounting use No. 7806 NEMA 1 sheet steel enclosure with No. 7801 handle guard.
