870351	33F	6 oz.	6 1/2"	Flexible

PLASTIC PUMPS For Lighter Liquids

365

MODEL 365 (00365)

Fits 15 through 55 gallon drums with 2 inch bung opening. Constructed of nylon, stainless steel, and special packings. Can be used with some stronger chemicals and solvents, such as lacquer thinner.

Also suitable for edible products such as cooking oils. Includes bung adapter and discharge spout. Spout can be removed and special hose attached. Dispenses approximately 8 oz. per stroke.

SKU NO. 870408

MODEL 366 (00366)

Fits 15 through 55 gallon drums with 2 inch bung opening. Has steel piston with brass piston ring. Includes bung adapter and curved discharge spout which can be rotated 180°. Discharge spout can be removed to expose garden hose threaded outlet. Dispenses approximately 1 1/2 pints per stroke.

SKU NO. 870396

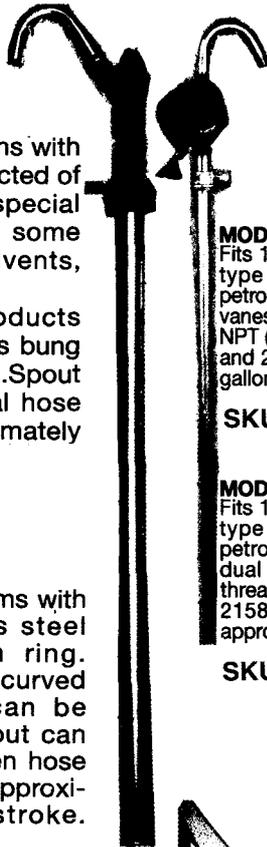

360

MODEL 360 (00360)

Fits 15 through 55 gallon drums with 2 inch bung opening. Constructed of polypropylene and nickel plated steel. Can be used with weak acids, anti-freeze, some mild chemicals and detergents. Includes bung adapter and discharge spout. Spout can be removed and special hose attached. Dispenses approximately 8 oz. per stroke.

SKU NO. 870405

365

1000

MODEL 1000 (01000)*

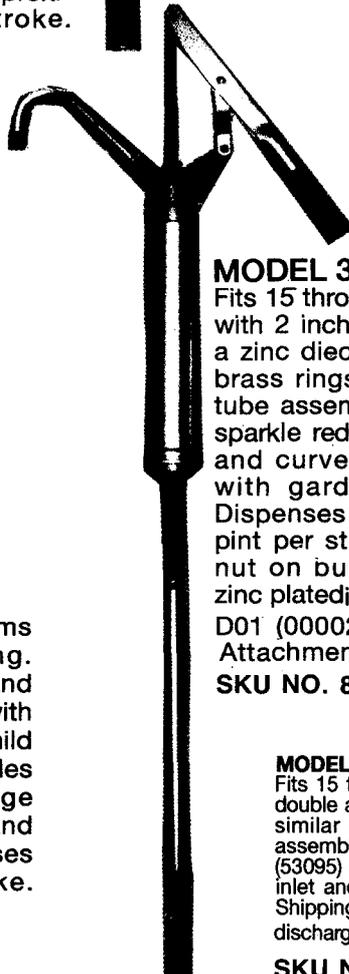

Fits 15 through 55 gallon drums with 2 inch bung opening. A rotary vane type pump for dispensing gasoline, diesel fuel, and similar light petroleum products. Heavy duty cast iron body, dual graphitic bakelite vanes, and aluminum bung adapter. Discharge spout threaded 3/4 inch NPT (Male). Hose assemblies 2154 (52154), 2156 (52156), 2158 (52158) and 2178 (52178) available at extra cost. Dispenses approximately 7 1/2 gallons per 100 revolutions.

SKU NO. 870402

MODEL 950 (00950)*

Fits 15 through 55 gallon drums with 2 inch bung opening. A rotary vane type pump for dispensing gasoline, diesel fuel, and similar light petroleum products. Light weight but strong aluminum diecast body, dual metallic vanes, and aluminum bung adapter. Discharge spout threaded 3/4 inch NPT. Hose assemblies 2154 (52154), 2156 (52156), 2158 (52158) and 2178 (52178) available at extra cost. Dispenses approximately 7 1/2 gallons per 100 revolutions.

SKU NO. 870399

MODEL 382 (00382)

Fits 15 through 55 gallon drums with 2 inch bung opening. Has a zinc diecast piston with two brass rings, steel telescoping tube assembly, Buna N Seals, sparkle red plastic handle grip, and curved discharge spout with garden hose threads. Dispenses approximately one pint per stroke. Has adjusting nut on bung threads. Bright zinc plated is equipped with No. D01 (00002) Non-Drip Attachment.

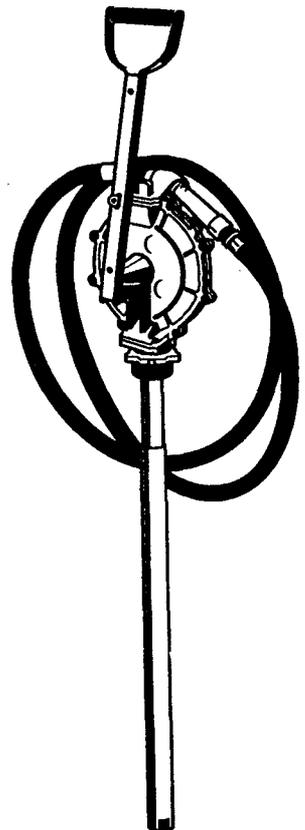

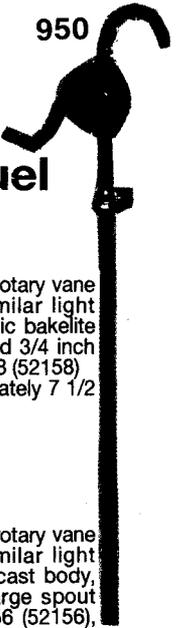

SKU NO. 870411

MODEL 30A2 (00302)

Fits 15 through 55 gallon drums, or tanks with 2 inch bung opening. A double acting diaphragm pump for dispensing gasoline, diesel fuel, and similar petroleum products. Steel and aluminum telescoping tube assembly (22 inches to 39 inches) with neoprene seal. No. L30-95N (53095) eight foot hose with straight through discharge nozzle 3/4" NPT inlet and outlet. Delivers approximately one gallon per eight strokes. Shipping Wt. 13 lbs. except includes automatic cut-off type discharge nozzle.

SKU NO. 870393

950

Gasket Remover

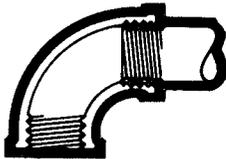

Gasket Remover cleans old sealer residue and gasket material from flange faces. It is a powerful solvent blend which softens, swells and/or dissolves coatings, deposits, and even many paints from metal surfaces.

SKU NO	MFG NO	PKG	TYPE	SIZE
870926	51325	Spray	Remover	12 oz.

USES

- Softens/removes old sealers
- Softens/removes old gasket residue
- Softens/removes paints
- Softens/removes adhesives

Nickel-Ease

Nickel based. For temperatures to 2600°F (1427 °C). This premium lubricant is substantially free from copper, lead sulfides, or chlorides. Its nickel and graphite flake formula makes Nickel-Ease safe to use with chemicals such as anhydrous ammonia, acetylene, and other vinyl monomers unstable in the presence of copper.

SKU NO	MFG NO	PKG	TYPE	SIZE
870564	51119	Tube	Nickelease	1 lb.

USES

- Chemical plants and oil refineries
- Municipal water and sewage plants
- Other places where a "clean", inert compound is desired

Maxi-Coat

Maxi-Coat is a solvent dispersed petroleum based corrosion preventive compound. It gives heavy duty, thick film protection to metal surfaces. For long term protection in outdoor conditions,

SKU NO	MFG NO	PKG	TYPE	SIZE
870549	51211	Spray	Coating	16 oz.

USES

- Machinery
- Over-head crane rails
- Conveyor systems
- In outdoor, caustic, or acid fume conditions
- Ground maintenance equipment
- Protects chain and cable
- Outdoor lighting systems
- Heavy-duty material handling equipment
- Structural steel
- Carbon steel
- Welded jigs
- Industrial pipe
- Plate steel tubing
- Generator sets

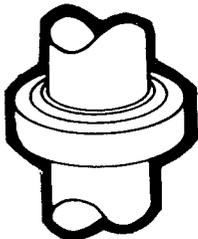

Penetrating Oil

Penetrating Oil's formulation of grease dissolvers and penetrants gives it exceptional penetration for disassembly and assembly of machinery, piping, valves, etc. Oil seeps into cracks and pores fast,

SKU NO	MFG NO	PKG	TYPE	SIZE
870555	51221	Spray	Lubricant	16 oz.

USES

- Disassembling nuts, bolts, studs, and pipe fittings
- Freeing stack valves and frozen bearings
- Protects tools against rust
- Disassembling machinery

Multi-E.P. Grease

General Purpose Extreme Pressure Grease
 Multi-E.P. Grease withstands extremes of pressure, and temperature ranges from 0°F to 450°F (-18°C to +232°C). Continuous use should not exceed 250°F (121°C). maintains pumpability at low temperatures,

SKU NO	MFG NO	PKG	TYPE	SIZE
870213	51242	Cartridge	E.P.	14.5 oz.

USES

- Bearings: rolling element and sliding
- Gears
- Slides
- Industrial, Automotive, Agricultural, Construction

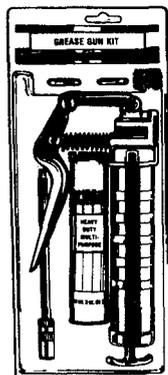

C5-A®

Multi-purpose, copper based. For temperatures to 1800°F (980°C). C5-A is an all-purpose anti-seize lubricant that speeds assembly and disassembly of studs, bolts, flanges and fittings. recommended for most anti-seize applications.

SKU NO	MFG NO	PKG	TYPE	SIZE
870207	51005	Brushtop	C5-A	10 oz.
870210	51007	Brushtop	C5-A	16 oz.

USES

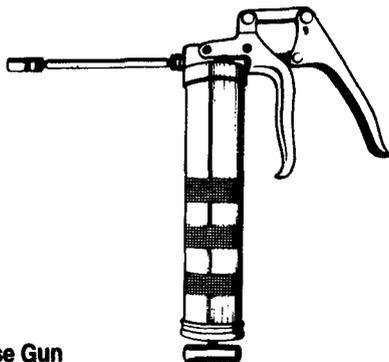

- Steam Turbines
- Feed Pumps
- Boilers
- Foundry Core Molding Machines
- Bolts
- Pipe Plugs on Machinery, and Construction and Agricultural Equipment
- Valves
- Flanges
- Extruders and Dies

11105 Midget Grease Gun Kit

Small, versatile gun allows user to let pipe come out of front or top. Handy for all greasing applications. Barrel takes 3-oz. grease cartridges or can be bulk loaded. Includes push lock plunger, die cast T-handle that locks in place for loading, 5-1/2" straight grease pipe standard-duty coupler and 3-oz. cartridge of multi-purpose #2 lithium grease.

SKU NO. 870441

11145 Pistol-Matic® Grease Gun

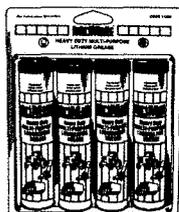

Has electrostatic finish with durable zinc die cast head. Barrel takes 14-oz. grease cartridges or can be loaded by bulk fill or filler fitting (not included).

SKU NO. 870447

Multi-Purpose Lithium Grease

Long-lasting, hard-working formula delivers high performance in wide range of heavy-duty applications. Recommended for chassis, universal joints and other general-purpose applications around the home, farm or shop. Works best for lubricating rolling parts.

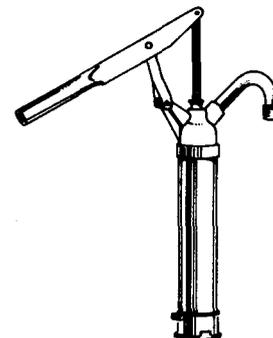

- | SKU NO. | Mfg. No. | |
|---------|----------|--------------------------|
| 870741 | 11300 | 4-pack of 3-oz. refills. |
| 870720 | 11315 | 14-oz. cartridge. |
| 870714 | 11316 | 16-oz. (1-lb.) can. |

High-Temperature Wheel Bearing Grease

Meets high temperature requirements of disc brakes and similar applications. Also excellent for lubricating wheels with drum brakes.

- | SKU NO. | Mfg. No. | |
|---------|----------|---------------------|
| 870711 | 11380 | 16-oz. (1-lb.) can. |

11230 Heavy-Duty Lever Action Barrel Pump

SKU NO. 870450

Specifically designed for fast transfer of petroleum-based non-corrosive liquids from 15-55 gallon drums with 2" bung opening. Hand operated. Dispenses approximately 3/4 pint per stroke. Floating piston design assures positive seal and floating steel check valve drains liquid when not in use. Equipped with brass rings, Viton® seal, self-adjusting telescopic suction tube, special clamping bolt for rotating, curved spout with standard threaded male hose connector and corrosion-resistant finish.

11140 Suction Gun

Designed for draining and filling non-corrosive liquids. Barrel holds approximately one pint with 9" stroke. Features zinc die cast T-handle, 12" plastic hose, clamp and durable corrosion resistant finish.

SKU NO. 870465

11155 Zinc-Plated Lever Action Grease Gun

Plated for maximum rust and corrosion resistance. Provides heavy-duty performance for industrial, agricultural and automotive uses. Three-way loading. Individual display carton packaging.

SKU NO. 870444

Moly EP Multi-Purpose Grease

Addition of molybdenum disulfide to lithium-based grease makes this lubricant especially effective for sliding motions, such as sleeve-journal rotating shafts and ball joints. Contains extreme pressure (EP) additives to reduce scuffing, scoring and seizure with high loads.

- | SKU NO. | Mfg. No. | |
|---------|----------|-------------------|
| 870723 | 11335 | 14-oz. cartridge. |

White Lithium Grease

Includes zinc additive for a clean, white color. Ideal for general home, shop, automotive, agricultural and industrial applications. Provides superior performance and protection in many weather and temperature conditions.

- | SKU NO. | Mfg. No. | |
|---------|----------|---------------------|
| 870717 | 11350 | 16-oz. (1-lb.) can. |
| 870750 | 11354 | 14-oz. cartridge. |

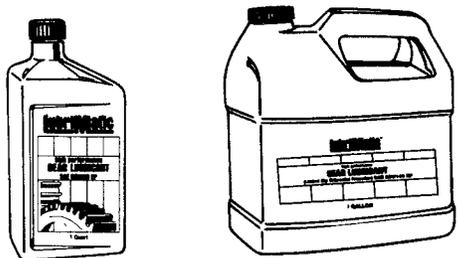

High-Temperature Wheel Bearing Grease

Meets high temperature requirements of disc brakes and similar applications. Also excellent for lubricating wheels with drum brakes.

SKU Mfg. No.
NO. 11380
870711 16-oz. (1-lb.) can.

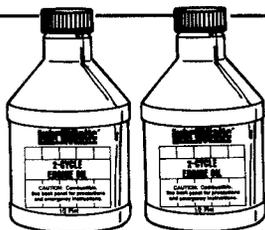

Provide superior anti-foaming, anti-scoring and non-corrosive protection. Exceed API GL-5 classification, U.S. military specification MIL-L-2105D, MACK GO-G and automobile/truck manufacturers' specifications for SAE 80W90 EP gear lubricant, including those requiring protection for limited slip differentials.

SAE 80W90 EP

Formulated with EP additives to exceed most extreme performance requirements. Withstands severe shock, high torque loads and wide temperature variations.

SKU NO. Mfg. No.
870726 11500 SAE 80W90 EP
Quart plastic bottle with spout cap.
870738 11507 SAE 80W90 EP
Gallon bottle.

Two-Cycle Oil

Formulated to improve performance, extend engine life and reduce plug fouling. Provides excellent wear protection and high temperature performance. Recommended for use in chain saws, snowmobiles, trimmers, motorcycles, small outboard motors, snow blowers, mowers and other air-cooled two-cycle engines.

SKU NO. Mfg. No.
870744 11525
8-oz. plastic bottle.

Hydraulic Jack Oil

For all standard and bottle jacks.

870435	12065	1/4"	45° Angle
870438	12075	1/4"	90° Angle

SAE 85W140 EP

Premium blend contains extreme pressure additives to provide heavy-duty protection. Outstanding for use in garden tillers and other equipment. Suitable for tractor, truck and industrial applications such as manual transmissions, differentials or other gear boxes which require heavy-duty multi-purpose lubricant.

SKU Mfg. No.
NO. 11509 SAE 85W140 EP
Gallon bottle.

Hydraulic Couplers

Fit any standard grease gun. Constructed so jaws automatically release when brought to sufficient angle. Can be removed from fitting without difficulty. 1/8" pipe threads can be used on rigid pipe or flexible hose. Has corrosion-resistant finish and ball check to prevent leakage and loss of pressure.

SKU Mfg. No.
NO. 11802
870453 11802

Mfg. No.

11810 180° Swivel Coupler

Designed to lock at any angle up to 90°. Spring loaded sleeve locks coupler in place for straight applications or slides back for angular applications. Has 8" overall length and corrosion-resistant finish. 12 per master

SKU NO. 870462

Flexible Hoses

Rubber with wire braids. For use with all hand-operated grease guns. SAE 100 RI at 3,000 psi working pressure, 12,000-lb. burst pressure. 1/8" pipe thread on both ends.

SKU Mfg. No.
NO. 11825
870456 11825
12". Individually packaged.

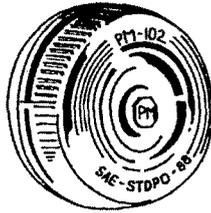

Mfg. No.

11865 Grease Injector Needle

Designed for greasing sealed bearing applications where sharp needle point can penetrate seal. Fitting head easily snaps into any grease gun coupler. Needle comes with protective plastic cover to prevent injury and damage to point.

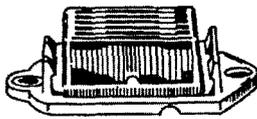

SKU NO. 870459

SURFACE MOUNT

A low cost unit with quality features. VIBAR® socket protects bulb from premature failure.

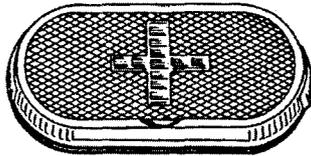

SKU NO.	Mfg. No.	Color
870783	V102A	Amber
870786	V102R	Red

MINI-LITE

A gem of miniaturization; unbelievably compact yet packed with quality features. Base has external mounting holes. Acrylic lens locks into base, cannot be knocked out by tree limbs, etc.

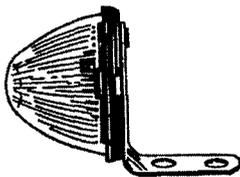

SKU NO.	Mfg. No.	Color
870789	A107WA	Amber
870792	A107WR	Red

COMBINATION LIGHT

Acrylic lens features built-in reflex reflector and exclusive "OE style, prism optics" for brilliant signal; eliminates separately mounting a reflector. M127 series is the 108W light with push-in wire connections and the M128 series is the 108W with a twist-in socket. M129 series features a separate ground wire. Uses PM's patented VIBAR® socket to prolong bulb life.

SKU NO.	Mfg. No.	Color
870798	V108WR	Red

BEEHIVE LIGHT

Molded housing will never corrode. Acrylic lens snaps onto housing, eliminating customary retainer ring. Rugged reinforced, plated mounting bracket.

SKU NO.	Mfg. No.	Color
870804	V110R	Red

OBLONG TWO BULB

Popular style two bulb clearance marker light features two of PM's patented VIBAR® sockets for prolonged bulb life. Acrylic lens snap-seals onto housing; interchangeable with many similar competitive lenses.

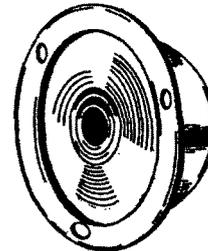

SKU NO.	Mfg. No.	Color
870807	V135A	Amber
870810	V135R	Red

SINGLE FACE

Bonderized steel housing finished with baked black enamel. Lexide lens gasket seals out dust and moisture. 4 1/4" lens retained by snap ring for quick bulb and lens service. Hollow mounting bolt requires 7/16" hole. Available Viz-Pack only.

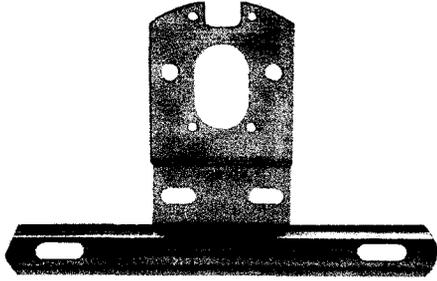

SKU NO.	Mfg. No.	Color
870819	A410-2	Amber

FLUSH MOUNT

Double wire stop, turn and tail light. 413 series has a bonderized steel housing with a black enamel finish. 413S series features 304 stainless steel housing and retainer ring with a brass socket.

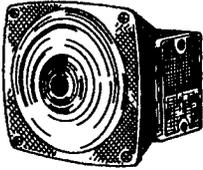

SKU NO.	Mfg. No.	Color
870822	V413	Red

UNIVERSAL LICENSE BRACKET

Heavy gauge, zinc plated steel bracket slotted for universal mounting. Designed for use with all PM tail lights.

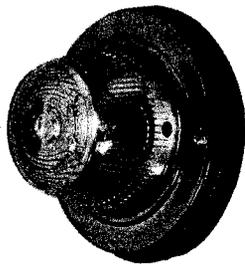

SKU NO.	Mfg. No.	Color
870855	V428-09	Steel

COMBINATION LIGHT

Combination lights perform seven functions: stop, turn and tail, rear reflector, side marker light and reflector and license illuminator. Molded housings will never corrode. Aftermarket lights supplied with lead wires and bulk lights feature push-in contacts. **W** denotes white housing.

SKU NO.	Mfg. No.	Color
870828	V440	w/o license illuminator

BACK-UP LIGHT

OEM styling permits numerous applications. Chrome plated bezel and Lexan® lens make this unit attractive and functional. Requires only a 3/4" mounting hole.

SKU NO.	Mfg. No.	Color
870816	V392C	Clear

SNAP-IN LICENSE/UTILITY LIGHT

Chrome plated steel light snaps into 1 1/4" diameter hole, overall diameter is 1 1/2". Ideal for courtesy, interior, instrument and license lights. Two units required for legal license illumination.

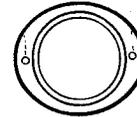

SKU NO.	Mfg. No.	Color
870834	V438	Clear

STEEL TRACTOR/IMPLEMENT LIGHT-PAR 36

Black enamel finish on a bonderized steel housing. 4411 sealed beam produces a 3,000 c.p., trapezoidal light pattern. Lead wire exits through a 7/16" hollow mounting stud. Swivel bracket permits installation on horizontal, vertical or slanted surfaces. 408LU is par 36 housing only.

SKU NO.	Mfg. No.	Color
870816	V408	Trapezoid light

ALUMINUM OVAL

3" diameter acrylic lens in low-profile aluminum housing. Completely rustproof. Red or amber. V472 series contains one reflector.

SKU NO.	Mfg. No.	Color
870837	V472A	Amber
870840	V472R	Red

ROUND QUICK MOUNT

3" diameter acrylic lens. Adhesive backing permanently mounts reflector to any clean, flat surface. Red or amber. V475 series consists of one reflector.

SKU NO.	Mfg. No.	Color
870843	V475A	Amber
870846	V475R	Red

OBLONG QUICK MOUNT

4 3/8" x 1 7/8" acrylic lens. Adhesive backing permanently mounts reflector to any clean, flat surface. Red or amber. V480 series contains two reflectors.

SKU NO.	Mfg. No.	Color
870849	V480A	Amber
870852	V480R	Red

**MIRACLE®
POWDERED
GRAPHITE**

For lubrication of metal, wood, or plastic. Pierce and squeeze.

SKU NO. 870756 MFG NO. 26663

**BICYCLE REPAIR
KIT**

Includes 100 lb. tire gauge, 2 valve caps, 3, 1"x1", 2, 1"x2", 1, 2"x3" patches, buffer and cement.

SKU NO. 871137 MFG NO. 23330

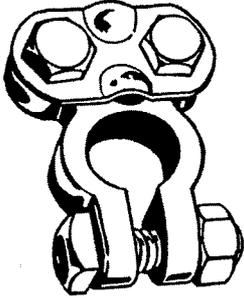

**MAGNETIC
HOLDER**

Heat resistant with slide cover. For new long keys. Holds up to 2 keys. Heavy magnet.

SKU NO. 871122 MFG NO. 46661

**HEAVY DUTY
LEAD BATTERY
TERMINAL**

Twin bolt solderless type replacement terminal. Deluxe thick wall construction.

SKU NO. 870240 **MFG NO. 48855**

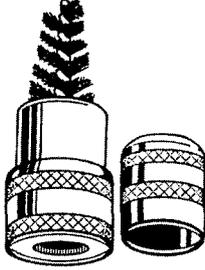

**HEAVY DUTY LEAD
REPLACEMENT
SIDE TERMINAL**

Twin bolt solderless type terminal for use with side terminal batteries. With mounting stud.

SKU NO. 870243 **MFG NO. 48866**

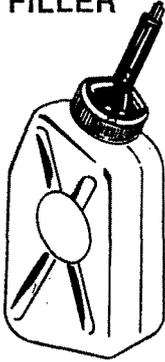

**METAL BATTERY
BRUSH**

Post and terminal cleaner. Metal and chrome plated. circular stainless steel brush cleans terminals. Unscrew and use inside tapered brush to clean cable connectors.

SKU NO. 870222 **MFG NO. 45552**

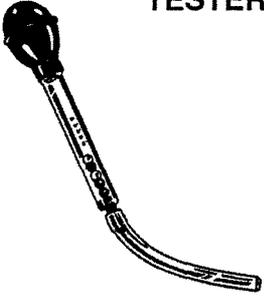

**BATTERY BOTTLE
FILLER**

Automatic valve prevents overfilling. Unbreakable polyethylene construction.

SKU NO. 870225 **MFG NO. 45559**

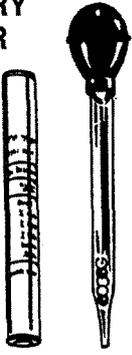

**ANTI-FREEZE
TESTER**

Checks anti-freeze and summer coolant. Tests hot or cold radiator. Floating balls show degree of protection. Checks to -40°F.

SKU NO. 871125 **MFG NO. 46664**

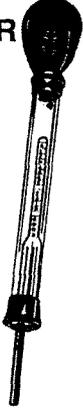

**BATTERY
TESTER**

Easy to check. Floating balls indicate battery condition. Tests cars, trucks, motorcycles, and marine batteries.

SKU NO. 870216 **MFG NO. 46665**

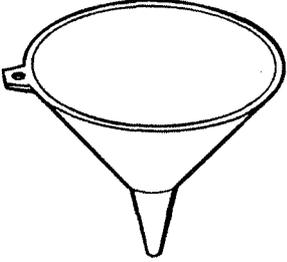

**PROFESSIONAL
BATTERY
HYDROMETER**

Tests status of the battery. Operates on specific gravity of fluid. Calibrated. Acid resistant 3" rubber bulb and long flexible tip. 8½" long. Glass filler tube.

SKU NO. 870219 **MFG NO. 46667**

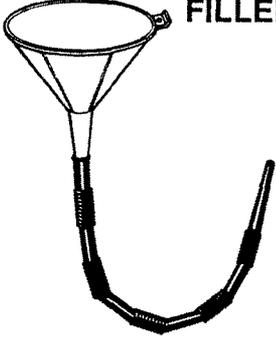

1 PINT FUNNEL

Poly funnel for auto or household needs.

METAL SAFETY CANS

Fire protective inplant storage of flammables. Heavy-duty terne plate with double-seamed construction. All models have double-wire mesh flame-arresters for fastest pour-thru, leak-tight self-closing spout for automatic pressure relief. Free swinging, "convenience" handle on 2-, 3- and 5-gal sizes. Red powder coat paint finish provides superior chemical, corrosion & scuff resistance.

TRIDON ▶▶

All Tridon full size Gear Clamps feature this interlock construction which strengthens under tension to ensure maximum torque application. The design of Tridon Gear Clamps does not employ the use of spot welds thus eliminating possible acceleration of corrosion.
